ERP & BUSINESS SOFTWARE SOLUTIONS

One Connected Platform for Everyday Operations

Configurable ERP solutions connecting commercial, operational and financial workflows—designed for reuse across different companies through secure organization-level configuration.

CONNECTED BUSINESS MODULES

ERP INDIA
GST-oriented workflows supporting HSN/SAC, CGST, SGST, IGST, tax summaries and invoice controls.

ERP SAUDI
VAT-ready, Arabic-English capable and designed to support ZATCA/FATOORA integration requirements.

CONFIGURATION

Change company name, logo, address, tax details, users and workflow settings—without rebuilding the core system.

Configurable • Scalable • Business Ready

WEB, EMAIL & DIGITAL INFRASTRUCTURE

A Professional Digital Foundation for Modern Companies

We build coordinated digital systems that strengthen credibility, communication and customer engagement while supporting reliable day-to-day operations.

WEBSITE DEVELOPMENT

Responsive corporate websites, service showcases, project portfolios, enquiry forms, search-engine fundamentals, analytics integration and ongoing maintenance.

DOMAIN & PROFESSIONAL EMAIL

Domain setup, DNS configuration, business mailboxes, SPF, DKIM and DMARC guidance, migration support and delivery troubleshooting.

CLOUD & APPLICATION SUPPORT

Hosting and deployment guidance, secure access configuration, backup planning, application monitoring and support for multi-location operations.

Responsive Design

Secure Communication

Reliable Infrastructure

Scalable Support

One connected foundation for your website, communication and business applications.

WORKFLOW, PROJECT & WORKFORCE AUTOMATION

Less Manual Chasing. Stronger Operational Visibility.

We digitize recurring processes so teams can submit information once, obtain approvals faster and access dependable reports without maintaining disconnected records.

TIMESHEET & OVERTIME AUTOMATION

Employee and external-manpower timesheets, project allocation, shift records, overtime calculations, supervisor verification and payroll-ready summaries.

PROJECT SCHEDULING & TRACKING

Activities, milestones, responsibilities, target dates, progress updates, resource visibility, delays and management dashboards.

HR & MANPOWER MANAGEMENT

Employee records, attendance, leave, assignment history, skills, certifications, document-expiry alerts and workforce allocation.

CONNECTED CONTROLS

Role-Based Access

Multi-Level Approvals

Notifications & Alerts

Audit Trail & Reports

Automate Work • Improve Control • Make Better Decisions

BRAND & DIGITAL BUSINESS SERVICES

Consistent Communication from Identity to Customer Touchpoint

We help businesses present a clear, credible and unified identity across print and digital channels through coordinated brand and communication materials.

BRAND IDENTITY

Logo development, colour and typography direction, brand usage guidance and visual systems designed for consistent application.

CORPORATE COLLATERAL

Company profiles, catalogues, business cards, letterheads, email signatures, proposal templates, invoice layouts and presentation materials.

DIGITAL PRESENCE

Social-media graphics, cover images, campaign creatives, service posters, announcements and professional business content.

UNIFIED DELIVERY

**One Visual
Language**

**Print & Digital
Consistency**

**Professional
Communication**

**Market-Ready
Materials**

— One Brand • Every Touchpoint • Consistent Business Impact —

OUR DELIVERY APPROACH

From Requirement to Reliable Operation

From the first requirement discussion to deployment and long-term support, we stay focused on building technology that works for the business.

01

UNDERSTAND

Review workflows, users, documents, challenges, approvals, reports and desired outcomes.

02

DESIGN

Define the solution structure, user experience, permissions, workflows, templates and reporting needs.

03

BUILD

Develop, configure and integrate the solution through controlled stages and regular internal reviews.

04

DEPLOY

Validate agreed scenarios, incorporate managed feedback, configure the system and support user orientation.

05

SUPPORT

Provide troubleshooting, maintenance and planned enhancements as operational needs continue to develop.

Technology that works for your business — today and tomorrow.

DELIVERY PRINCIPLES

Clear Scope

Practical Timelines

Regular Communication

Managed Revisions

Documented Acceptance

Responsive Support

INDIA & SAUDI MARKET READINESS

Local Requirements Supported by Flexible Technology

Axionvera supports businesses operating in India, Saudi Arabia or across both markets through separate configurations aligned with local commercial and operational requirements.

FOR BUSINESSES IN INDIA

GST-oriented invoicing and documentation

HSN / SAC and tax configuration

CGST, SGST and IGST workflows

Sales, purchasing and expense controls

Projects, workforce and management reporting

Cloud deployment and technical support

FOR BUSINESSES IN SAUDI ARABIA

VAT-ready commercial documents

Arabic and English capability

Designed to support ZATCA/FATOORA integration requirements

Sales, purchasing and expense controls

Projects, workforce and management reporting

Remote implementation and technical support

SEPARATE CONFIGURATIONS

India and Saudi solutions are configured independently so each business can follow the correct tax, document, language and operational requirements.

CROSS-BORDER SERVICE MODEL

Remote
Requirement Review

Structured
Development Stages

Secure
Cloud Access

Ongoing
Technical Support

COMPLIANCE NOTE:

Customer tax registration, authority onboarding and final regulatory activation remain the responsibility of the registered business.

WHY CHOOSE AXIONVERA

Technology with an Operational Mindset

We combine business understanding, configurable technology and responsive support to deliver systems that remain relevant as your organization grows.

BUSINESS-FIRST THINKING

We begin with the workflow and business objective—not unnecessary complexity.

CONFIGURABLE & SCALABLE

Company details, users, permissions, approvals, forms and reports can be configured around your operating model.

INDIA & SAUDI READINESS

Separate configurations support Indian GST-oriented workflows and Saudi VAT and ZATCA integration requirements.

SECURE & CONTROLLED

Role-based access, approval controls, audit history, secure deployment planning and backup guidance.

CLEAR PROJECT GOVERNANCE

Defined scope, practical schedules, regular communication, managed revisions, testing and documented acceptance.

SUPPORT BEYOND LAUNCH

User orientation, troubleshooting, maintenance and planned enhancements support long-term improvement.
